COMMUNITY COMMUNICATIONS COMMITTEE (CCC)

The CCC provides the project with a mechanism for engaging with representatives of a cross-section of community/public sectors for the purposes of strengthening understanding of the scope and purposes of the Project, and involving them in disseminating information and informing constituent advocacy groups and the general public about comment opportunities. The CCC was designed to be representative of the major functions of the station and surrounding community. The identification of those to be invited to join this Committee was developed in coordination with USRC and FRA and took into account feedback from the Scoping Process.

CCC Members include:

- DC Council Member Ward 6 Charles Allen
- ANC 6C04
- ANC 6C02
- ANC 6C06
- H Street Main Street
- NoMA BID
- Capitol Hill BID
- Downtown BID
- DDOT
- National Association of Railroad Passengers (NARP)
- VRE
- MARC
- WMATA
- Capitol Hill Restoration Society
- Disability Group
- Transportation for America (T4)
- Destination DC

INTERAGENCY COMMITTEE (IAC)

The IAC is comprised of all agencies who were engaged in Agency Scoping. While some agencies will be Cooperating Agencies to the EIS or Consulting Parties to the S106, the breadth of Federal, DC, and State Agencies be will continuously engaged throughout the NEPA process, for technical input or jurisdictional coordination.

The current IAC list includes:

- AOC
- CFA
- Deputy Mayor for Planning and Economic Development (DMPED)
- DDOT
- District of Columbia Office of Planning (DCOP)
- District Department of Energy & Environment (DOEE)
- DC HPO
- FHWA

- GPO
- General Services Administration (GSA)
- Maryland Department of Transportation (MDOT)
- MTA
- Metropolitan Washington Council of Governments (MWCOG)
- NCPC
- NPS
- Transportation Security Administration (TSA)
- VRE
- VA DPRT
- WMATA

IAC TRANSIT SUBGROUP

A Transit Subgroup of the IAC that includes transportation agencies was convened to discuss the specific methodology and scope of the multimodal transportation analysis. The intent is to discuss specific data sources and potential data collection in support of the multimodal transportation analysis. Invited members include:

- DDOT
- MDOT
- MTA
- VRE
- WMATA
