May 23, 2021

Dear Ms. Walker:

This letter responds to the Port Authority Trans Hudson (PATH) rail system submission dated May 1, 2021, to the Federal Railroad Administration (FRA) seeking approval of its material modifications to the Engineer Certification Program received by FRA on February 15, 2021. PATH has complied with FRA's procedures for submission and approval of your Engineer Certification program as described in Appendix B to 49 CFR part 240.

FRA reviewed the railroad's program modifications and determined that the railroad's program modifications conform with the requirements of 49 CFR part 240 for the reasons discussed below.

Your submission states that on October 23, 2020, the railroad provided a copy of its program modification to Mr. Carlos Proano, local president of BLET. FRA received no comments on the program or program modification by the labor organization.

The program modifications are consistent with the model of the previously approved railroad programs. FRA understands that the modifications are intended to provide more detail to the engineer certification process and updated contact information. Additional modifications to the submission also addressed deficiencies with the standard requirements of 49 CFR part 240, Appendix B. The improvements enhance qualifications for DLSE's. Standards have been set with regards to re-qualifying over a specific territory. Detailed training standards have been established in your engineer training program.

Please continue in your efforts to improve railroad safety on your system.

Please contact me with any questions regarding this submission at (918) 557-0651 or FRAOPCERTPROG@dot.gov or Kevin.Lewis@dot.gov

Sincerely,

Kevin Lewis
FRA Program Manager – Certification
