Statement of Federal Railroad Administration Deputy Administrator Amit Bose on California High-Speed Rail Project Litigation

“DOT and the State of California have engaged in productive settlement negotiations over the past several weeks and the Department is encouraged by the progress between the parties; we hope to be able to reach a final settlement in the near future. In recent months, the State has voiced a commitment to advance this pioneering project, which aligns with the Biden-Harris Administration’s priorities as well as those of the American Jobs Plan: economic opportunity, equity, and combatting climate change.”
