Administration

Mr. Brian Edwards
Director of Safety and Training
Lake State Railway Company
750 N. Washington Ave.
Saginaw, MI, 48607

May 24, 2021

Dear Mr. Edwards:

This letter is in response to the Lake State Railway Company (LSRC) submission dated May 1, 2021, to the Federal Railroad Administration (FRA) seeking approval of its material modifications to the LSRC Conductor Certification Program received by FRA on May 3, 2021. LSRC has complied with FRA's procedures for submission and approval of programs is described in appendix B to 49 CFR part 242. FRA reviewed the railroad's program modification and determined that the railroad's program modification conforms with the requirements of 49 CFR part 242 for the reasons discussed below.

Your submission package states that no labor organizations are representing the railroad's employees.

The program modifications are consistent with the model of the previously approved Class III railroad programs. FRA understands that the modifications are intended to provide more detail to the conductor certification process and update contact information. Additional modifications to the submission also addressed deficiencies with the standard requirements of 49 CFR part 242, appendix B.

Please continue in your efforts to improve railroad safety on your system.

Please contact me with any questions regarding this submission at (202) 366-0978 or FRAOPCERTPROG@dot.gov or Kevin.Lewis@dot.gov

Sincerely,

Kevin Lewis
FRA Program Manager Certification
