Statement of Federal Railroad Administration Deputy Administrator Amit Bose on Resolution of California High-Speed Rail Project Litigation

“The U.S. Department of Transportation and the State of California have reached a final settlement to resolve the litigation over the Federal Railroad Administration’s (FRA) termination of its Fiscal Year 2010 Cooperative Agreement with the California High-Speed Rail Authority (CHSRA). This settlement agreement follows intensive negotiations between the parties and reflects the Federal government’s ongoing partnership in the development of high-speed rail. It also underscores CHSRA’s commitment to deliver this transformative infrastructure project. The Department is excited about reestablishing this important relationship with the State of California and is committed to fulfilling its oversight responsibilities. This settlement is an important step in advancing an economically transformational project in California.”
