

Request ID	Received Date	Request Description
FFRA-22-00001	10/1/2021	<p>We request on behalf of The Associated Press under the Freedom of Information Act information concerning the condition and history of a BNSF Railway (BNSF) railroad in Montana that's under jurisdiction of the Federal Railway Administration (FRA). Specifically, we are seeking inspection, maintenance and accident records/reports that could shed light on the circumstances surrounding the Sept. 25, 2021 derailment of an Amtrak train near Joplin, Montana that resulted in three immediate deaths and numerous injuries. Please provide electronic copies of: --any and all inspection records submitted by BNSF Railway and any contractors, subcontractors or other parties acting on BNSF's behalf to the FRA pertaining to the section of railroad in proximity to the scene of the Sept 25 Montana Amtrak derailment. -- any and all maintenance records submitted by BNSF Railway and any contractors, subcontractors or other parties acting on BNSF's behalf to the FRA pertaining to the section of railroad in proximity to the scene of the derailment. --the results of any FRA audits of BNSF inspection records pertaining to the section of railroad in proximity to the scene of the derailment. --any maintenance records, summaries or reports submitted by BNSF Railway and any subcontractors or other parties acting on BNSF's behalf to the FRA pertaining to the section of railroad in proximity to the scene of the derailment. --the results of any and all FRA or FRA-contracted audits of BNSF inspection records pertaining to the section of railroad in proximity to the scene of the derailment. --any and all emails, letters, phone call logs or other correspondence and communications between BNSF Railway and the FRA concerning the condition or maintenance of the section of railroad in proximity to the scene of the derailment. --any and all emails, letters, phone call logs or other correspondence and communications received by FRA from members of the public or any other interested party concerning the condition or maintenance of the section of railroad in proximity to the scene of the derailment. --any records, reports or other material pertaining to prior accidents or derailments along the section of railroad in proximity to the scene of the derailment. For purposes of this request, "the section of railroad in proximity to the scene of the derailment" includes the stretch of railroad between Mile Posts 1012 and 1015 of the Hi Line Subdivision Main line, within BNSF's Montana Division. We are seeking records for the five year period leading up to the derailment: June 25, 2021-Sept 25 2021. (Date Range for Record Search: From 7/25/2021 To 9/25/2021)</p>
FFRA-22-00002	10/6/2021	<p>Any proposals from 2008-2012 detailing plans to build a railroad path directly from Phoenix, Arizona to Las Vegas, Nevada, or directly from Reno, Nevada to Boise, Idaho. Additionally, any proposals from 2018-Present to build additional tunnels through the mountain range(s) in the continental divide.</p>
FFRA-22-00003	10/6/2021	<p>If an investigation was conducted, we would appreciate information on the best method to obtain a copy of the investigation report. Date of Incident: June 9, 2021 Location: Altamont Commuter Express Train Collision in Tracy, California, intersection of South MacArthur Drive and West Linne Road.</p>

FFRA-22-00004	10/12/2021	"... we are looking for comments from FRA to either MDOT or Fed Highway Administration in relation to MDOTs proposed plan referenced below... - Submitted in response to MDOT's release "Preferred Alternative", written between the dates of March 1, 2021 and July 23, 2021 - As part of NEPA process for the Maryland "Managed Lanes" process, initiated on March 16, 2018. Link to the federal register, document # 2018-05354 announcement <a href="https://www.federalregister.gov/documents/2018/03/16/2018-05354/notice-of-intent-to-prepare-environmental-impact-statement-i-495-and-i-270-managed-lanes-study">https://www.federalregister.gov/documents/2018/03/16/2018-05354/notice-of-intent-to-prepare-environmental-impact-statement-i-495-and-i-270-managed-lanes-study</a> " (Date Range for Record Search: From 3/1/2021 To 7/23/2021)
FFRA-22-00005	10/12/2021	"... Documents including applications, emails and attachments, faxes, presentations and transcripts from representatives of Fortress Investment Group and its rail companies including Brightline Holdings LLC and Brightline West from January 1, 2019 through present pertaining to records such as financing requests, applications, bid proposals and communications to FRA officials from Brightline/Fortress representatives. Documents including applications, emails and attachments, faxes, presentations and transcripts pertaining to plans for a high-speed rail line to Las Vegas, Nevada through California from January 1, 2019 through present"
FFRA-22-00006	10/12/2021	Date of Derailment: May 18, 2020 at 11:00 pm Derailment Location: at or near 54 Savage Place, East Aurora, NY "...this office represents Genesee & Wyoming Railroad Services, Inc. and Buffalo & Pittsburgh Railroad, Inc. regarding a derailment referenced above...please provide this office with copies of any and all documents, including but not limited to investigation reports, written and/or recorded statements, correspondence, violations, citations, photographs, written and/or recorded statements and any and all other related documents, pertaining to the above referenced incident, regardless of the media which it is stored." (Date Range for Record Search: From 5/18/2020 To 5/18/2020)

FFRA-22-00007	10/14/2021	<p>1. Has the Federal Railroad Administration participated in the termination of any CP Police Service or CN Police Service officers pursuant to any state laws which regulate Railway Police in their jurisdiction? 2. If your Office is aware of cases where the CP Police Service or CN Police Service have terminated police officers under their employ, but has never participated in these terminations, please provide us with the reasons for such non-participation and any records that document the legal rationale, applicable jurisdictional considerations, and relevant decision-making processes. This request includes, but is not limited to, the disclosure of any details and records that document whether CP Railway's or CN Railway's civilian corporate leadership was involved in any aspect of the termination(s), in what capacities, and on whose initiative the termination(s) occurred. 3. We request any records and information that reflect the Federal Railroad Administration's legal oversight of the CP Police Service and the CN Police Service. This includes records reflecting whether the Office of the Secretary of Transportation imposes any ongoing operational audit or accountability requirements such as civilian oversight of the CP Police Service and CN Police Service. This request also includes any records reflecting the Federal Railroad Administration's requirements that the CP Police Service and the CN Police Service must operate with total operational independence from the commercial corporations that own and over see them. This part of our request specifically seeks records reflecting any laws or requirements that preclude the CP Police Service and the CN Police Service from being involved in, or having any investigative jurisdiction over, workplace deaths, serious injuries, or other policing incidents that occur pursuant to their companies' commercial operations. 4. We also request records reflecting whether the Federal Railroad Administration has laws, policies, procedures, practices, or requirements to ensure that if a death, serious injury, or other potentially criminal incident occurs pursuant to CP Railway and CN Railway's commercial operations, only independent police forces may investigate or be involved (to the total exclusion of the CP Police Service and the CN Police Service). 5. We also request any information and records reflecting whether the Federal Railroad Administration is aware of cases where the CP Police Service or the CN Police Service have exercised exclusive, parallel, or joint investigative jurisdiction over any deaths, serious injuries, or other incidents at CP Railway or CN Railway in the past 20 years (or as far back as your Office has records). 6. We further seek any records reflecting any prerequisite conditions and qualifications that the Federal Railroad Administration requires prospective Railway police officers to have or complete in order to qualify under 49 U.S. Code § 28101(d). In addition, we seek any records reflecting any grounds upon which persons can be removed or barred from becoming law enforcement officers in a given State (e.g. level of education; minimum training standards; citizenship status; residency in a State; and associations with, or allegiance to, foreign states, persons, or entities). 7. Finally, we seek copies of the records or documents in the possession of the Federal Railroad Administration which show the total number of fatal accidents which were investigated entirely by, or with the involvement of, CN and CP Railway Police Officers. This includes records reflecting all instances t</p>

FFRA-22-00008	10/14/2021	I'm reaching out to request a copy of the grant application that the City of Tulare submitted to the CRISI program last funding cycle. The award was made last year (2020) but the application was probably submitted in 2019. Here are the details about the project. Name of Project: Pedestrian and Vehicle Safety Enhancements to the Intersection of J Street and Prosperity Avenue Applicant: City of Tulare Enhances grade crossing safety at the intersection of J Street and Prosperity Avenue, on Union Pacific's railroad in Tulare, California. Improves pedestrian and vehicle safety, including elements such as a pre-signal for eastbound traffic, advanced pre-emption, traffic signal upgrades, upgrades to the rail crossing infrastructure and signal infrastructure, new pedestrian facilities that are ADA compliant, new striping, and minor pavement improvements.
FFRA-22-00009	10/14/2021	Date of Incident: February 9, 2021 Location of Incident: 1000 block of Pittsburgh & Blockdale Streets, Cheswick, PA FRA Crossing NO.: 510883K Any/all information related to and/or pertaining to train accidents at the above location, also referred to as "Blockdale Crossing," including but not limited to: any/all run sheets, accident reports, investigations, inspections, videos, photographs and any other document and/or information pertaining to the above location and/or above referenced traincrash.
FFRA-22-00010	10/18/2021	"I AM REQUEST A ACCIDENT REPORT FOR AUGUST 01/2021 11 P.M. A MAN FATALLY HIT ON TRACKS BY METRA TRAIN BETWEEN KEDZIE AVENUE AND OAK PARK STATION. HE WAS HIT BY UNION PACIFIC WEST LINE TEAIN FULL OF PASSENGERS RETURNING FROM LOLLAPALOOZA .
FFRA-22-00013	10/25/2021	"...Request for grant-related records from 2017 to the present regarding the Federal-State Partnership for State of Good Repair (CFDA Program #20.326), the Consolidated Rail Infrastructure and Safety Improvements Program (CFDA Program #20.325), the Intercity Restoration and Enhancement Grant Program (CFDA Program #20.324), the High-Speed Rail Corridors and Intercity Passenger Rail Service - Capital Assistance Grants (CFDA Program #20.319), and the Capital Assistance to States - Intercity Passenger Rail Service Grant Program (CFDA Program #20.317)." (Date Range for Record Search: From 1/1/2017 To 10/25/2021)

FFRA-22-00014	10/28/2021	<p>"I request 1. Copies of all documents constituting or relating to communications between North Coast Railroad Company, LLC and United States Department of Transportation (specifically Federal Railroad Administration or Build America Bureau). The time period for this request commences January 2021. 2. Copies of all documents constituting or relating to communications between the Utah Inland Port Authority (including all individuals referenced in the attached memorandum on Utah Inland Port Authority letterhead) and United States Department of Transportation (specifically Federal Railroad Administration or Build America Bureau) relating to use of federal funds to acquire or to rehabilitate all or a portion of NCRA's embargoed line of railroad between Willits, CA, and Eureka, CA, in Mendocino, Trinity and Humboldt Counties, CA. The time period for this request commences January 2020. 3. Copies of the "Final Letter of Intent" for Sierra Northern Railway and Mendocino Railway (hereinafter Mendocino Railway) for the project. 4. Documents submitted by Mendocino Railway to show support for its project in Mendocino County. 5. Copies of all environmental documentation prepared to comply with NEPA by or on behalf of US DOT for the project to date. 6. Documents sufficient to show (a) to whom to submit environmental documentation or comments on the project and (b) who is responsible for approving any final environmental documentation for the project. 7. Documents sufficient to show the location of the project. 8. Documents sufficient to show what rail purpose is served by the project insofar as it is located in Mendocino County, CA. 9. Documents sufficient to show whether the project insofar as it is located in Mendocino County, CA, is for excursion rail purposes or for freight rail purposes. 10. If the project purports to be for freight rail purposes, documents sufficient to show that the proposed freight rail service has any interconnection to the national freight rail system, and if so where. 11. If the project purports to have an interconnection to the national freight rail system, please supply any documents showing whether the line to which it is interconnected is embargoed, and for how long it has been embargoed. 12. Documents sufficient to show where and how Mendocino Railway proposes to use federal funds for rail purposes in Mendocino County, CA or in any neighboring counties in connection with the project. 13. Documents sufficient to show all instances in which federal financial assistance for railroads under any US DOT program to provide financial assistance for railroads has been supplied to rehabilitate excursion railroads, or railroads used for rail scooters, rail trolleys, or rail bikes. 14. Documents sufficient to identify the current regulations</p>
FFRA-22-00015	11/1/2021	<p>All files and other documents related to the CSX Transportation train derailment located near Lilesville, Anson County, North Carolina ("Lilesville Derailment Site") from September 16, 2018 (the date of the derailment) to present, including but not limited to: photos; videos; notices of violation; complaints; orders; any enforcement-related documents; permit applications; maps and diagrams; sampling information including split sample analytical reports; correspondence; notices; notes and memoranda including field notes, and meeting notes; inspection reports and all other reports; assessments; work plans; investigation plans; scopes of work; design plans, and community engagement activities, interaction and other involvement."</p>

22-0010-APPL	11/2/2021	<p>[Appeals use of exemption (b)4 and exemption (b)6] - See Appeal letter for more detail. Excerpt below: [(b(4)) "...The MCRT has not seen any affidavit or other document that BWRR may have submitted in support of its exemption claim. However, in developing almost 495 pages of comments on the FRA's DEIS, the MCRT has analyzed the ridership information that the FRA has relied on. Here the FRA's DEIS describes the ridership as a "key metric" in addressing the impact of operating the project yet only six ( of the DEIS's 4,1 00 pages are devoted to describing its ridership forecasting method. The DEIS provides so little data that the official ridership forecast is not reproduceable. It appears that the FRA merely copied its ridership numbers from BWRR contractor Louis Berger's 2018 report. In fact, the SC Maglev DEIS cites the Louis Berger report in Appendix D 4 (footnote to Table D4 19 pg. D 36) and Chapter 4.6 ( 4.6 3 footnote 9) and noted the steps that BWRR, the project sponsor, took to check the ridership forecast (Append ix D 2, pg. B 104) as the source of the ridership data. There is also no indication in the DEIS that the FRA ever independently analyzed the Louis Berger forecasting data. [(b(6)) Here, the FRA has no reasonable basis to redact critical ridership data from the Lou is Berger ridership report under Exemption 6. While the MCRT is not privy to the basis for asserting Exemption 6, it is reasonable to conclude that the redacted ridership data could not in any way provide individual personal data for each rider that might use the SCMaglev to meet the threshold Exemption 6 test. We base this conclusion on the fact that the redacted ridership data from the Louis Berger report likely relates to forecasting SC Maglev ridership as a whole and not the individual names and addresses of individuals who might use it in the future. Even assuming that the redacted ridership data has some information of a personal nature, balancing the public interest in disclosure against the need for protection clearly favors release of the redacted data. That is, the Louis Berger ridership report likely contains critical information that BWRR believes justifies the project and therefore is central to the FRA's analysis of the project's purpose and need as required under the NEPA. The commenting public clearly had a vital interest in reviewing these data in developing comments on the Draft EIS. Yet, failure to release that underlying data clearly prejudiced the MCRT and the many other commenters from providing comprehensive comments on the DEIS going to the very basic ridership justification for the project."</p>
FFRA-22-00017	11/4/2021	<p>"... any emails between the FRA and State of Maryland entities that discuss the reduction in scope...of the Douglass / B&amp;P Tunnel Replacement Project from 4 tunnels/tracks to 2 tunnels/tracks...as well as any documents circulated amongst both of those entities that address the rationale behind the reduction from January 1, 2021 to June 30, 2021." (Date Range for Record Search: From 1/1/2021 To 6/30/2021)</p>

FFRA-22-00018	11/4/2021	"Pursuant to the Freedom of Information Act (FOIA), I hereby make the following request for all information available to the general public regarding the following FY20 Consolidated Rail Infrastructure and Safety Improvements grant program project: PROJECT NAME: Rail Pulse: The Realization of Railcar Location, Condition, Health, and Telematics Sensors on the North American Railcar Fleet PROJECT SPONSOR: Pennsylvania Department of Transportation OPPORTUNITY ZONE: Multiple AWARD AMOUNT: Up to \$7,895,000 I am specifically seeking grant application documents, including all information related to the formation of the joint venture of Rail Pulse partners (Norfolk Southern, GATX Corporation, Genesee & Wyoming, TrinityRail, and Watco), if said information was included in the project application. I would also like to receive the project proposal, if available."

FFRA-22-00037	12/7/2021	“Verification of...current status of Jonathan D. Swenson’s Federal Railroad Administration’s (FRA) Conductor Certification.”
FFRA-22-00038	12/8/2021	all information regarding the accident: (FRA Accident Number R000201350) that took place at the railroad crossing (Crossing ID: 155636P)(Coordinate: 41.5992, -87.2628) near Miller Station at Barr Subdivision in Gary, Indiana (Lake County) on November 16, 2021
FFRA-22-00039	12/8/2021	All reports relating to the relocation of the existing facility including any reports related to alternative sites or locations for the passenger shelter; • All communications, emails, letters, or memoranda, whether to internal or to external parties, relating to the relocation of the Holdrege Station and negotiations for the lease; • All reports, studies, queries, or investigations undertaken to determine the feasibility of an alternative location to the current proposed location 100 feet east-southeast of the historic depot building in Holdrege, Nebraska; and • Any and all documents relating to the construction of the passenger shelter.
FFRA-22-00040	12/8/2021	We request updated records including general construction permits for stormwater discharge, any 404 permits, documentation regarding coordination with the State Historic Society under section 106 of the NHPA, right of entry/removal agreements, easement vacations, documents related to hazardous wastes, and construction permits from Salt Lake City and Salt Lake county.
FFRA-22-00041	12/8/2021	RE:Date of Accident: 05/12/2020 Location of Accident: Pavonia Yard, Camden, Camden County, New Jersey 08105, as part of the Camden Beltline Runaround Dear Sir/Madam: In connection with personal injuries sustained in a work-related train accident which occurred on May 12, 2020, at the tracks located at or near the Pavonia Yard, Camden, Camden County, New Jersey 08105, as part of the Camden Beltline Runaround near the Camden Iron & Metal facility. Pursuant to the Freedom of Information Act, please allow this letter to serve as a request for a copy of your complete file and all reports regarding the above-referenced incident. This request includes all documents in the possession of the FRA Headquarters, all FRA Regional Offices, and all FRA Field Officers. This request specifically includes the following: • FRA Headquarters-Level Railroad Accident Investigation Reports; • FRA Regional Office-Level Railroad Accident Investigation Reports; • FRA Field Office-Level Railroad Accident Investigation Reports; • Root Cause Analysis Reports; • Annual Accident/Incident Bulletins; • Coding and Reporting of Injuries; • Annual FRA Guide for preparing Accident/Incident Reports; • Risk assessments and hazard analysis conducted for the location in question; and • Any other documents in the possession of the FRA which relate to the incident of May 12, 2020, including all photographs, witness statements (transcribed or recorded), notes of investigation, findings, and/or citations/penalties issued.
FFRA-22-00042	12/9/2021	Requester is seeking: Fran looking for accident report 10/2/21 230am Austin TX Bowie and W. 3rd Wesley Rust 1/24/93

FFRA-22-00043	12/9/2021	I am writing this on behalf of Ferrocarril Internacional del Norte (FIN) as a request for the study realized by the FRA regarding a Passenger Rail titled "Texas – Oklahoma Passenger Rail Study" completed on 2017 in cooperation with the Texas Department of Transportation. It would be of outmost interest for us if you would be so kind to share said study, as well as the "Dallas – Houston High Speed Rail Project" and any related information/study regarding a Passenger rail to the border with México and any kind of connection towards the cities of Nuevo Laredo or Monterrey.
FFRA-22-00044	12/9/2021	"I am researching the impacts that railroads have within the City of Pittsburgh and the policies railroad companies have in place pertaining to accidents on lines. Specifically, I am interested in learning about the Station Square Derailment, which happened on August 5, 2018 in Pittsburgh. In particular, I am interested in receiving documents pertaining to the safety procedures Sherry Rail Services took with its double-stack intermodal trains prior to that accident, and whether they have updated their policies since. Also, I am interested in receiving documents related to the FRA and DOT reports and findings on this incident."
FFRA-22-00045	12/10/2021	The purpose of this request is to obtain copies of certain specific documents and records, including all electronic documents and communications, (collectively "Records") in the possession, custody, or control of the Federal Railroad Administration ("FRA") with regard to the LNG by Rail Rule (PHMSA-2018-0025 (HM-264)). The scope of this FOIA request is narrow. It includes Records either prepared by the Pipeline and Hazardous Materials Safety Administration ("PHMSA"), or by the FRA, or by their representatives or consultants, or Records prepared by third parties and submitted to the FRA or PHMSA during the limited period of time from September 2, 2021 through December 10, 2021 which supplement, respond to or are a part of the ongoing studies identified in PHMSA's October 2019 Preliminary Regulatory Impact Analysis ("PRIA") for the LNG by Rail Rule (PRIA No RIN 2137-AF40). The PRIA sets out a detailed description of ongoing studies conducted by either PHMSA or the FRA. This FOIA request is for Records that concern one or more of the following: 1. The FRA full-scale pool fire test of a new ISO LNG filled tank to be conducted during the first quarter of FY2020; 2. The FRA full-scale tank car impact test and analysis concerning two DOT 113 tanks. This test was to conclude in May 2020 and was conducted for the purpose of evaluating the performance and crashworthiness of DOT 113 specification tank cars; Freedom of Information Officer December 10, 2021 Page 2 3. The FRA safety research LNG tender crashworthiness assessment that was expected to be concluded in December 2020. This project was to be a modeling exercise intended to analyze the performance of an ISO tank ("LNG tender") in the context of several different accident scenarios: head impact, shell impact, bottom impact and top impact; 4. The FRA full-scale LNG tender rail highway crossing impact test. The project began in 2016 and was expected to conclude in December 2020. The purpose of the test was to evaluate the survivability of valves and valve housing on an LNG tender constructed per the AAR proposed standards in a rail crash crossing incident scenario as prescribed on the AAR M-1004 standard; and 5. The FRA project commenced in the fall of 2019 that was conducted for the purpose of evaluating the risk of unit trains as compared to regular merchandize trains

		transporting hazardous materials, including LNG. (Date Range for Record Search: From 9/2/2021 To 12/10/2021)
FFRA-22-00046	12/10/2021	copies of: 1. All audio recordings, tapes, and video recordings related to the 6/24/2021 collision, to include but not limited to, video footage from the train. 2. All black box downloads related to the 6/24/2021 collision. 3. All photographs related to the 6/24/2021 collision. 4. All log(s) records, reports, and investigation notes/reports related to the 6/24/2021 collision. 5. All statements made by the operator of the Amtrak train 6. All statements from Amtrak employees regarding the 6/24/2021 collision. 7. All statements from CSX employees regarding the 6/24/2021 collision. 8. All statements from witnesses and individuals with knowledge of the 6/24/2021 collision. 9. All documents related to the Federal Railroad Administration's investigation of the 6/24/2021 collision. 10. All reports related to collisions or injuries that occurred at Outpost Road and Rockahock Road in New Kent County, VA from 1/1/2011 -present. 11. All documents related to repairs and/or modifications made to the crossing at Outpost Road and Rockahock Road in New Kent County, VA from 1/1/2011-present. 12. All documents related to studies and/or evaluations regarding the safety of the crossing at Outpost Road and Rockahock Road in New Kent County, VA from 1/1/2011 -present. 13. All documents related to complaints regarding the crossing at Outpost Road and Rockahock Road in New Kent County, VA from 1/1/2011 - present. 14. All documents related to studies regarding the design of the crossing at Outpost Road and Rockahock Road in New Kent County, VA from 1/1/2011 - present. 15. All documents related to changes made to the crossing at Outpost Road and Rockahock Road in New Kent County, VA from 1/1/2011 -present. 16. All documents related

		to studies regarding changes to the crossing at Outpost Road and Rockahock Road in New Kent County, VA from 1/1/2011-present.
FFRA-22-00047	12/13/2021	request for the complete crossing file of the and any and all documents for the at-grade crossing commonly known as South Wood Street, in the City of Harvey, Illinois, at its intersection with the railroad tracks of CSX Transportation, Inc., inventoried as DOR/AAR crossing # 163376U, including, but not limited to, all studies, photos, agreements, petitions, orders, closure, or other documents, prints or memoranda regarding the subject crossing.
FFRA-22-00048	12/13/2021	I request accessto and copies of repair expense reports for railroads in Illinois in the year 2020. (Date Range for Record Search: From 1/1/2020 To 12/31/2020)
FFRA-22-00049	12/13/2021	I am seeking records of the past three years of construction done on railroad crossings in Arkansas. From 2019, 2020, and 2021. I am looking for where the railroad crossing is, what construction was needed and when the construction was done. Either all of Arkansas, or white county in Arkansas.

FFRA-22-00050	12/13/2021	Request for; 1. All audio recordings, tapes, and video recordings related to the 3/11/2021 collision, to include but not limited to, video footage from the train. 2. All black box downloads related to the 3/11/2021 collision. 3. All photographs related to the 3/11/2021 collision. 4. All log(s) records, reports, and investigation notes/reports related to the 3/11/2021 collision. 5. All statements made by the operator of the CSX train. 6. All statements from CSX employees regarding the 3/11/2021 collision. 7. All statements from witnesses and individuals with knowledge of the 3/11/2021 collision. 8. All documents related to findings of the Federal Railroad Administration related to the 3/11/2021 collision. 9. All documents related to the Federal Railroad Administration's investigation of the 3/11/2021 collision. 10. All reports related to collisions or injuries that occurred at Rockahock Road, 860 feet west of Outpost Road, in New Kent County, VA from 1/1/2011 -present. 11. All documents related to repairs and/or modifications made to the crossing at Rockahock Road, 860 feet west of Outpost Road, in New Kent County, VA from 1/1/2011 - present. 12. All documents related to studies and/or evaluations regarding the safety of the crossing at Rockahock Road, 860 feet west of Outpost Road, in New Kent County, VA from 1/1/2011 - present. 13. All documents related to complaints regarding the crossing at Rockahock Road, 860 feet west of Outpost Road, in New Kent County, VA from 1/1/2011 - present. 14. All documents related to studies regarding the design of the crossing at Rockahock Road, 860 feet west of Outpost Road, in New Kent County, VA from 1/1/2011 - present. 15. All documents related to changes made to the crossing at Rockahock Road, 860 feet west of Outpost Road, in New Kent County, VA from 1/1/2011 - present. 16. All documents related to studies regarding changes to the crossing at Rockahock Road, 860 feet west of Outpost Road, in New Kent County, VA from 1/1/2011 -present.
FFRA-22-00051	12/13/2021	request for; • All reports, diagrams, videos, photographs, audio recordings, dispatch calls, witness statements, notes, and other documents and/or communications relating to the Incident; • All documents and communications relating to any other collisions between trains and passenger vehicles at the railroad grade crossing at South Windsor Street and Hillside Lane; • Records of all maintenance, if any, that has been performed at or around the railroad grade crossing at South Windsor Street and Hillside Lane including any and all maintenance, cutting, trimming, removal, etc., of any trees, plants, vegetation and/or structures within 250 yards of the railroad grade crossing at South Windsor Street and Hillside Lane; • All records and/or other documentation relating to the signage at or around the railroad grade crossing at South Windsor Street and Hillside Lane, including but not limited to: (1) when such signs were erected or installed; (2) at whose request the signs were erected or installed; (3) the federal, state and/or local Agency erecting or installing said signage; (4) the federal, state and/or local Agency paying for the erection or installation of said signage; (5) the original source of the funds, which paid for the erection or installation of said signage be it a federal, state or local agency; (6) the identity of the federal, state or local Agency responsible for maintaining said signage; and, (7) any changes, updates, and/or maintenance to the signage; and, • All records showing who owns the railroad track on which the Amtrak train involved in the Incident was operating at the time of the Incident, as well as

		who owns the railroad track at the railroad grade crossing at South Windsor Street and Hillside Lane and the right of way on which said tracks are installed.
FFRA-22-00052	12/14/2021	for a copy of any and all information to include but not limited to, recordings, incident reports, or any other information pertaining to the following train versus car collision incident: 1. Incident date: 10/03/2021 from 22:20 to 05:58 (24hr. clock) 2. Incident location: NAD Rd/Hwy 78, North Charleston, South Carolina 29418 4. CSX took over the investigation of the collision This request includes all information regarding this individual, whether as complainant, witness, victim, or suspect/defendant in any incident in your jurisdiction since January 1, 2020.
FFRA-22-00053	12/17/2021	We are seeking accident reports, interview notes, investigation notes, or other documents in your possession related to death, which occurred on August 11, 2021 at approximately 10 a.m. on BNSF's Hettinger Subdivision near Mile Post 1039.76 in the State of Montana. The death occurred in Fallon County, Montana, between Plevna, Montana and Baker, Montana.
FFRA-22-00054	12/21/2021	2021 copy of the following items be provided to me in regard to the incident identified below: Date of Incident.: 7/8/2021 Incident Location: 8989 Market St. Houston, Harris County Tx, Intersection DOT No.: 450463N Approximate Time: 9:28 P.M 1. The complete file and investigation report relating to the above referenced incident; 2. Any written witness statements; 3. Any recorded interviews, including interviews recorded by body camera; 4. Any photographs; 5. Any body camera recording; and 6. Any police reports or incident reports. 7. Any documentation regarding any reportable incidents from January 1, 2011 to the present at the Union Pacific railroad track located near the 8989 Market St. Houston, Harris County Tx.

FFRA-22-00055	12/22/2021	<p>RE: FOIA request related to railroad crossing DOT# 393628C on 4g3nt Ave., near Big Stone City, in Grant County, South Dakota, and statewide railroad crossing projects in the State of South Dakota Dear Sir or Madam: This is a request under the Freedom of Information Act ("FOIA"), 5 U.S.C. § 552. I request that a copy of the following documents or documents containing the following information be provided to me: (1). All documents regarding or related to federally funded projects pertaining to passive or active warning installations, including advanced warning signs, pavement markings including any stop lines that may be painted, crossbucks, stop and/or yield signs, flashing lights, cantilevers, gates, or any other warnings given to motorists approaching the vicinity of crossing DOT# 393628C on 483?? Ave., near Big Stone City, in Grant County, South Dakota. (2). All documents regarding or related to federally funded projects pertaining to the installation of cross bucks at railroad grade crossings within Grant County, South Dakota. Please note that responsive documents could be included in a statewide project to install cross bucks at railroad grade crossings throughout the State of South Dakota. (3). All documents regarding or related to Project No. PS000S(213), a project whereby advanced warning signs, crossing signs, yield signs, posts and reflective strips may have been installed at DOT# 393628C on 483?? Ave., near Big Stone City, in Grant County, South Dakota. This request includes, but is not limited to, the federal highway aid project file for said project. Based on prior requests seeking similar information, I have come to understand that most, if not all, States had undertaken various federally funded cross buck projects in the 1970s and 1980s under the Railway-Highway Crossing Program, also known as the Section 130 Program. Part of what I am looking for are documents evidencing whether such a project occurred within the State of South Dakota.</p>
FFRA-22-00056	12/23/2021	<p>REQUEST FOR THE CRASH REPORT FROM THE FEBUARY 5,2021 TRAIN FATALITY THAT OCCURED IN BAY COUNTY FLORIDA AT AROUND 5:00 AM CENTRAL STANDARD TIME JUST NORTH OF THE STAR AVENUE AND 231 RAILROAD CROSSING WITH THE BAY LINE RAILROAD STRICKING AND ALL RELATED MATERAL OR REPORTS</p>
FFRA-22-00057	12/27/2021	<p>I'm following up a Jan. 3, 2020, Canadian Pacific derailment in LeClaire, Iowa. Please provide all documents, images and communications, including emails and texts regarding the incident, investigation and its causes. The online accident database provided a one-page summary for report number: 1001148695</p>

FFRA-22-00058	12/29/2021	I hereby request, pursuant to the rights granted by the Freedom of Information Act (5 U.S.C. § 552), all public documents concerning Norfolk Southern Railway Company, Inc. This request includes the following items, with relevant time spans noted: 1. All documents and materials of any kind related to a collision involving this carrier that occurred on November 23, 2021, in Bibb County, Alabama. All-time Requests § 234.7 Accidents involving grade crossing signal failure. (a) Each railroad shall report to FRA every impact between on-track railroad equipment and an automobile, bus, truck, motorcycle, bicycle, farm vehicle, or pedestrian at a highway-rail grade crossing involving an activation failure. Notification shall be provided to the National Response Center within 24 hours of occurrence at (800) 424-0201. Complete reports shall thereafter be filed with FRA pursuant to § 234.9 of this part (activation failure report) and 49 CFR 225.11 (accident/ incident report). (b) Each telephone report must state the: (1) Name of the railroad; (2) Name, title, and telephone number of the individual making the report; (3) Time, date, and location of accident; (4) U. S. DOT-AAR Grade Crossing Identification Number; (5) Circumstances of the accident, including operating details of the grade crossing warning device; (6) Number of persons killed or injured, if any; (7) Maximum authorized train speed; and ed highway speed limit, if known.
FFRA-22-00059	12/30/2021	for a copy of any/all of the following reports: FFY 3Q2019 FRA Quarterly Progress Report FFY 4Q2019 FRA Quarterly Progress Report, and FRA Final Performance Report for the following project: Knowledge Corridor "Restore Vermonter" Project State: MA Funding Source: American Recovery and Reinvestment Act of 2009 Awarded Funding: \$72,800,000 REF: Agreement No. FR-HSR-0040-11-01-00
FFRA-22-00060	1/3/2022	suant to the Freedom of Information Act (FOIA), please supply my office with all documents, reports, photos, videos, emails, correspondence, etc... relating to the incident in Front Royal, Virginia on March 5, 2021, including but not limited to all documents regarding and/or correspondence with Norfolk Southern Railways Company, Donahue Brothers Inc., and/or Hulcher Services.

FFRA-22-00061	1/3/2022	Request for a copy of any and all records from January 1, 2016, to December 31, 2021 from the Department of Transportation, Federal Aviation Administration pertaining to a security clearance suitability investigation, facility access investigation, facility access, security clearance, investigation, and program records. Please include Special access programs (SAPs) and or program records, joint agency agreements held by Federal Aviation Administration, Next Generation Air Transportation System (NextGen), private sector, Local, State, Federal, International, private partnerships, facilities, contractors, and contract records. Unrelated employment opportunities manipulated and destroyed. The illegal programs I remain a victim of in a forced situation are preventing me from returning to work. 4. Violations of Constitutional Rights by the Local Police, Maryland State Police including internal affairs surrounding the illegal investigations and programs.
FFRA-22-00062	1/4/2022	Request for information regarding a workplace fatality that took place in Warren County, Front Royal, Virginia on March 5, 2021. If you believe this FOIA Request would be more appropriately addressed by another person or entity, please advise. For purposes of this FOIA Request, I am respectfully seeking to copy and/or inspect any and all of the following paper or electronic "documents": 1. Any and all notes related to your agency's investigation of the workplace fatality that took place in Front Royal, Virginia on March 5, 2021; 2. Any and all resulting draft and/or final reports related to your agency's investigation of the workplace fatality that took place in Front Royal, Virginia on March 5, 2021; 3. Any and all witness statements related to your agency's investigation of the workplace fatality that took place in Front Royal, Virginia on March 5, 2021; 4. Any and all pictures and/or videos taken or received during your agency's investigation of the workplace fatality that took place in Front Royal, Virginia on March 5, 2021; and, 5. Any and all citations issued as a result of your agency's investigation of the workplace fatality that took place in Front Royal, Virginia on March 5, 2021.
FFRA-22-00063	1/7/2022	request for a copy of any and all investigations, investigation reports, findings and recommendations regarding an incident which occurred on or about 8/27/2017 in the State of West Virginia in which an employee of the Norfolk Southern Railroad named Franklin Salmons was allegedly injured while working on a ballast regulatory machine

FFRA-22-00064	1/10/2022	documents, reports, photos, videos, emails, correspondence, etc... relating to letters sent by the Federal Railroad Administration and directed to Norfolk Southern Railway Company, regarding Norfolk Southern's conductor certification program, which were sent on or about October 28, 2021 and September 9, 2021. At this time, we seek copies of the responsive records rather than an inspection.
FFRA-22-00065	1/10/2022	Request for records concerning a train derailment that occurred in Nashville, Tennessee (Madison area) on Saturday March 20, 2021 at approximately 3AM CST. We believe the incident was reported to FRA by CSX under accident number 196621 on a report perhaps dated March 27, 2021. We are seeking all records in possession or custody of the Federal Railroad Administration concerning this derailment including any reports, amendments or supplements by CSX, any third party and/or any government entity that may have investigated the incident.
FFRA-22-00066	1/11/2022	we are requesting a copy of U.S. Department of Transportation Federal Railroad Administration's file related to Grade Crossing Number 093373E, to include any and all reports, correspondence, emails, diagrams, notices, inspection reports, recommendations, photographs, video, and all other materials that you may have on file.
FFRA-22-00067	1/11/2022	Date of Accident: October 14, 2020 Accident Location: Railroad tracks at or near 2 Gandolfo Drive, Canaan, CT. copies of any and all documents, including but not limited to investigation reports, written and/or recorded statements, correspondence, violations, citations, photographs, written and/or recorded statements and any and all other related documents, pertaining to the above referenced incident, regardless of the media which it is stored.
FFRA-22-00068	1/12/2022	Our firm is investigating the death, which occurred on December 16, 2021, in Dowagiac, Michigan. Pursuant to the Freedom of Information Act, I would appreciate receiving the crossing inventory, action plans, and engineering studies from 1996 to the present regarding the above-noted crossing.
FFRA-22-00069	1/12/2022	for a copy of the Class of the Track that applies to the 20-mile segment of track between MP 471.0 and MP 491.0, pursuant to 49 C.F.R. § 213, for the years between January 1, 2014 and January 10, 2022, and all FRA Track Inspection Reports that have been issued by FRA between those same dates that pertain to the same segment. The requested documents and information should include all communications with Delta Southern Railroad, Inc., including but not limited to notices of violations or proposed violations, along with any of FRA's internal notes or memoranda regarding observed deficiencies in the track and responses submitted to FRA regarding Track Inspection Reports. (Date Range for Record Search: From 1/1/2014 To 1/10/2022)
FFRA-22-00070	1/13/2022	than January 1, 2022, collected by the FRA from the states participating in the FRA Rail State Safety Participation Program under 49 CFR Part 212. Please also provide the responsive records in digital, tabular form, such as in an .xlsx, .csv, or .txt file extension, or in its native format. Please do not export the data as a .pdf or .jpg file. I am also requesting a copy of any ID key FRA to define the field names listed in the respective database. (Date Range for Record Search: From 1/1/2008 To 1/1/2022)

FFRA-22-00071	1/13/2022	request for certified copies of your records related to the following accident: Complaint No. NTSB Accident No. RRD21LR016. FFRA-22-00141	4/8/2022	Any accident reports pertaining to the fatality of Tonya R. Rader on or about May 17 2021 in Greensfork, Indiana at railroad crossing number 527889C. Any investigative materials produced, generated, or received by the Federal Railroad Administration pertaining to the fatality on or about May 17, 2021 in Greensfork, Indiana at railroad crossing number 527889C. Documentation of any and all civil penalties issued by the Federal Railroad Administration to Norfolk Southern as the same pertain to railroad crossing number 527889C located in Greensfork, Indiana.
FFRA-22-00142	4/13/2022	accident reports (ever) at the rail crossing on Progress Rd (DOT#911573Y).
FFRA-22-00143	4/13/2022	Communication of any type to and from the FRA including meeting notes of Union Pacific staffing and/or hours of service issues due to, stemming from, and/or around and concerning COVID-19 regarding Train Dispatchers (or Control Operators), Engineers, Conductors, and Trainmen. from July 2020 to January 2022 (Date Range for Record Search: From 7/20/2020 To 1/31/2022)

22-0030- APPL	4/15/2022	<p>This is an appeal under the Freedom of Information Act. On December 10, 2021, we submitted a Freedom of Information Act (FOIA) request to the Federal Railroad Administration's (FRA's) FOIA Office seeking records related to certain studies identified in the Pipeline and Hazardous Materials Safety Administration's (PHMSA's) October 2019 Preliminary Regulatory Impact Analysis (PRIA) for the LNG by Rail Rule (PRIA No RIN 2137-AF40) (the FOIA Request). A copy of the FOIA Request is attached as Attachment 1. Specifically, this focused and narrow FOIA Request sought records either prepared by the FRA, or by PHMSA , or by their representatives or consultants, or records prepared by third parties and submitted to the FRA during the limited period of time from September 2, 2021 through December 10, 2021, which supplement, respond to or are a part of the studies identified in the aforementioned FOIA Request. In response to our FOIA Request, on December 10, 2021, we received a letter from Syreeta Jackson confirming that the FRA received the FOIA Request on December 10, 2021 (Attachment 2). In this letter Ms. Jackson did not provide an anticipated date of response. Rather, Ms. Jackson's letter advised that the FRA was experiencing a high volume of FOIA requests and that our "... request will be addressed in the order it was received." On January 27, 2022, our office sent a follow-up e-mail to the FRA inquiring about the status of the December 10, 2021, FOIA Request. That same day we received a response back from the FRA (Attachment 3) repeating the assertion that the FRA was experiencing a high volume of requests and that our "... request will be addressed in the order it was received." Once again, no anticipated date of response was provided. Further attempts were made by our office to follow-up on the status of this request on March 2, 2022, (Attachment 4) and March 29, 2022 (Attachment 5). As of the date of this letter, we have received no further communication from the FRA. We understand that under 49 C.F.R. § 7.34(c) the FRA may assert that exceptional circumstances warrant a delayed response to a FOIA Request. The FRA's December 10, 2021, letter acknowledging receipt of the FOIA Request (Attachment 2) and the FRA's January 27, 2022, response to our follow-up inquiry of the same day (Attachment 3) both advise that the FRA is experiencing a processing backlog. However, such delay is not infinite. Our FOIA Request was submitted more than one hundred twenty (120) days ago and further delay is not warranted. As far more than the authorized twenty Federal working days have now elapsed by not disclosing information within the timeframe allowed by 49 C.F.R. § 7.34(a), the FRA has failed to comply with the statutory deadline and thus constitutes a failure to comply with the FOIA. This failure effectively constitutes a denial of our FOIA Request. Consequently, we are now compelled to file this administrative appeal of the FRA's continuing failure to disclose the documents requested by the FOIA Request. This failure to disclose violates both the FOIA and the FRA's implementing regulations at 49 C.F.R. § 7. We now respectfully request that the FRA immediately respond to this administrative appeal and promptly provide us with the documents within the scope of the FOIA Request. If the FRA fails to respond to this appeal within 20 Federal working days as provided for in 49 C.F.R. § 7.33(a)(2) we shall consider the agency's failure to respond as a final agency decision from which we may seek judicial review. We shall also seek our attorney fees and costs.</p>

FFRA-22-00161	5/10/2022	I submitted a request for an electronic copy of the Chambers Track Inspection Report for Chambers Bay, Pierce County, Washington.

FFRA-22-00162	5/17/2022	Train Collision DOI: January 17, 2019 Location: 1400 S Dixie Hwy, Boca Operator: Brightline Conductor, request pursuant to FOIA for any accident reports, video footage, recorded statements, transcribed statements, photographs, and any and all documents in the FRA's possession for the above referenced incident.
FFRA-22-00163	5/17/2022	Request for an excel document with the name, state, job title and email address of all employees active at the Federal Railroad Administration. Please include everyone in the @dot.gov domain as well as any state specific or associated sub domains.
FFRA-22-00164	5/18/2022	request on the following incident. my uncle whom I lived with all of my life. I have attached my mother, aunt and wife to this email as well and will be representing the family on this matter. I would like to obtain dash cam footage, BNSF investigation documents and any other information that is pertinent to this case.
FFRA-22-00165	5/18/2022	This FOIA request is for Records that concern one or more of the following: 1. The FRA full-scale pool fire test of a new ISO LNG filled tank to be conducted during the first quarter of FY2020; 2. The FRA full-scale tank car impact test and analysis concerning two DOT 113 tanks. This test was to conclude in May 2020 and was conducted for the purpose of evaluating the performance and crashworthiness of DOT 113 specification tank cars; 3. The FRA safety research LNG tender crashworthiness assessment that was expected to be concluded in December 2020. This project was to be a modeling exercise intended to analyze the performance of an ISO tank ("LNG tender") in the context of several different accident scenarios: head impact, shell impact, bottom impact and top impact; 4. The FRA full-scale LNG tender rail highway crossing impact test. The project began in 2016 and was expected to conclude in December 2020. The purpose of the test was to evaluate the survivability of valves and valve housing on an LNG tender constructed per the AAR proposed standards in a rail crash crossing incident scenario as prescribed on the AAR M-1004 standard; and 5. The FRA project commenced in the fall of 2019 that was conducted for the purpose of evaluating the risk of unit trains as compared to regular merchandize trains transporting hazardous materials, including LNG.
FFRA-22-00166	5/19/2022	requesting the following information in accordance with the Freedom of Information Act. Please provide the following reports. 1. FRA Hazmat Division – Tank Car Team, report for the inspection/audit performed of the AAR Tank Car Committee's design approval process conducted August 2019 2. FRA Hazmat Division – Tank Car Team, report for the inspection/audit performed of the AAR Tank Car Committee's tank car facility quality assurance approval process conducted September 2019
FFRA-22-00167	5/19/2022	request for a copy of all documents in the possession of the Federal Railroad Administration regarding a complaint by CSXT employee relating to an alleged violation of 49 C.F.R. § 225.1 stemming from an injury, allegedly suffered on or around April 14, 2020. I understand that Inspector Colton J. Connatser (Inspector ID No. 17900) investigated the allegations and issued an inspection report regarding the matter on or about January 21, 2021. Please include al documents for this request, including the complete investigation file.

FFRA-22-00184	6/22/2022	I am requesting all FRA accident reports and electronic copies of all documents to be emailed to me related to sustained serious injuries in a collision between their train and a Mele & Mele & Sons truck which occurred on Thursday, May 26, 2022 in Harmar Township, Pennsylvania. Bothe were situated in the cab of a locomotive at the front of a large train which collided with the truck that had run through a stop sign at the train crossing.
FFRA-22-00193	6/28/2022	- Any accident report regarding a June 27, 2022 Amtrak derailment that occurred in Chariton County, Missouri, near the town of Mendon. I request that these records be delivered via email to ehoff@mail.missouri.edu in PDF, text document or spreadsheet form, if possible. I request a waiver of all fees. This request is being made for news gathering purposes and is intended for publication in the Columbia Missourian. This information is not being sought for commercial purposes. I also request expedited processing. This request is connected to news gathering related to a rail incident that occurred June 27, 2022 in Chariton County, Missouri, so timeliness helps inform the public and enhance its safety. If you deny any part or all of this request, please cite each specific exemption you feel justifies the refusal to release the information and notify me of the appeal procedures available to me under the law. Thank you for considering my request, and please feel free to contact me if you have questions or if I can be of assistance in ensuring swift fulfillment
FFRA-22-00190	6/28/2022	May we obtain the most recent inspection report for the Amtrak Southwest Chief Train 4? May we also obtain the most recent inspection report for the track near and public crossing in Mendon, MO at Porsche Prairie Road?
FFRA-22-00192	6/28/2022	Under the Freedom of Information Act, I am requesting an opportunity to inspect or obtain copies of the following public records: Reports created following inspections conducted by the Federal Railroad Administration in the state of Missouri from Jan. 1, 2012 to June 27, 2022.

FFRA-22-00191	6/28/2022	I am making a request pursuant to the FOIA to receive the original grant application(amendments) and all supporting documentation(pdfs, ppt's, emails) for the Sunshine Rail Corridor Program where Brightline Trains Florida LLC is the applicant and recipient of the federal grant. Also include all email communications between "Brightline" as represented by its employees using the domain name "nameofperson"@gobrightline.com and all federal agencies, all State of Florida agencies, Orange County, City of Orlando, Polk County, Osceola County, OUC the utility company, GOAA(Greater Orlando Airport Authority) and MetroPlan. Also do a "search inquiry" on the SQL server query function of the word "Meadow Woods". If the word "Meadow Woods" appears on your search, please provide the number and instances of this "find". Please make the records as requested, to be made available in electronic form. If any fees are due, please inform how much they would be as I am a willing payer of this FOIA request. For any questions feel free to reach me via email. If somehow, I cannot receive this as requested because of an "exemption", as FRA foresees that the release of the information in those records would harm an interest protected by one or more of the nine exemptions, i.e. Protects trade secrets and commercial or financial information which could harm the competitive posture or business interests of a company, then please so state under what "exemption" this request cannot be made available to the public. Please state the reasons under Federal law
FFRA-22-00186	6/28/2022	I would like to request any FRA inspection records related to the train derailment that happened on 6/27 near Mendon, Missouri that include the track, signal and train control system, mechanical equipment, and railroad operating practices for the past three years.
FFRA-22-00188	6/28/2022	Request for all documents, investigations, witness statements, pictures, video, audio and correspondence related to 12/18/2019 injury that occurred on the Fort Worth & Western Railroad as noted on the attached Herzog Incident Reporting Form: 12/18/2019 Fort Worth & Western Railroad Herzog Services Inc.
FFRA-22-00189	6/28/2022	I am therefore requesting copies of any enforcement records related to "JCI Jones Chemicals Inc." or "Jones Chemicals Inc." from 2013 to present day. Two of the enforcement cases are under the following file numbers: • ZJCC 2013 1 59810 0452 • ZJCC 2015 1 H3907 0001
FFRA-22-00194	6/30/2022	Any and all accident reports, supplemental and/or amended reports, summaries and writings or other relevant documents from Union Pacific Railroad regarding the injuries sustained on January 24, 2019 at Union Pacific's Lloyd yard office, 24189 Aldine Westfield Road, Spring, Texas
FFRA-22-00195	6/30/2022	I am writing to request records relating to a collision between a train and a Ford pickup truck driven in Hamblen County, Tennessee on May 1, 2022. Date and time of incident: May 1, 2022 at approximately 8:30 pm Location of incident: Rail crossing of rail line running parallel to Route 11E in Hamblen County, Tennessee near the Hawkins County line. It is believed that the following coordinates are where the collision occurred: 36.266314828118084, -83.10464513930627. Description of incident: A Ford pickup truck was struck on its passenger side by a train traveling West towards Morristown at a railroad crossing. The individual survived the crash and was airlifted to the hospital Documents requested: All documents related to the incident, including

		but not limited to all pictures and videos of the incident (including any video from the train directly before and after the collision), recordings and notes of any interviews conducted in connection with any investigation of the incident, and any investigative files related to the incident.
FFRA-22-00196	7/5/2022	request that all records in your possession which in any way relate to the above referenced incident be preserved regarding the above-referenced matter. We are requesting that both paper documents and electronically stored information ("ESI") be preserved. Please provide a copy of this litigation hold letter to any person(s) in Federal Railroad Administration's ("FRA") office best positioned to implement the document hold with respect to their retention of paper files and electronically stored files and the suspension of the destruction of any such files pursuant to any document retention policy FRA may have in place. These documents requested should include, but are not limited to the following: communications, notes, medical records, photographs, notes, meeting minutes, surveys, video surveillance, emails, texts, text messages, calendars, and any other records regarding the crash mentioned above that led to Mr. Barton's injury.
FFRA-22-00198	7/5/2022	1) All records including but not limited to accident and inspection reports, internal and external communications, internal and external memorandum, applications, permits, filings, pictures and surveys pertaining to the February 11, 2020 failure and subsequent repair of the Hoosac Tunnel, from the period of the failure to the present. 2) All records including but not limited to accident and inspection reports, internal and external communications, internal and external memorandum, applications, permits, filings, pictures and surveys pertaining to the March 2012 grant to the Massachusetts Department of Transportation ("MassDOT") for increasing clearance in the Hoosac Tunnel. As part of this request, we ask that you provide all records responsive to this request including the relevant portions of the Patriot Corridor survey and the resulting Hoosac Tunnel improvement project. Please include all records responsive to this request from the period of March 1, 2012 to present. 3) All records including but not limited to accident and inspection reports, internal and external communications, internal and external memorandum, applications, permits, filings, pictures and surveys pertaining to the maintenance, management, control, operations, repair, inspections or actions of any kind relating to the Hoosac Tunnel from the period of March 1, 2012 to the present. 4) All records of external and internal communications, including any exhibits thereto, concerning the Hoosac Tunnel, including but not limited to any communications with Pan AM Southern, LLC, Pan Am Railways, Norfolk Southern Railway, Springfield Terminal Railway and MassDOT from the period of March 1, 2012 to the present.

FFRA-22-00199	7/5/2022	It is my understanding that under HIPAA, EEOC, FOIA, and other related federal, state, and local laws and regulations I may request a copy of all my medical records that my employer and / or prospective employer have under my name. That is why, at this time I am requesting BNSF Railway and all of it's related companies, entities, contractors, and all and any third party entities that do business with BNSF Railway in any shape or form and that have or might have medical information pertaining to me to please submit a copy of all such medical information and / or records. At the same time I will like to know what are the parameters for the IPCS Biodex Physical Capabilities / Strength Test and in specific, the reason why I failed such test with as much detail as possible? In addition, what is the the legality of such test? There is precedent (see <a href="https://www.eeoc.gov/newsroom/csx-transportation-pay-32-million-settle-eeoc-disparate-impact-sex-discrimination-case">https://www.eeoc.gov/newsroom/csx-transportation-pay-32-million-settle-eeoc-disparate-impact-sex-discrimination-case</a> ) of CSX, another Class I Railroad where this type of test was found discriminatory and in violation of EEOC standards, so why is this test is still been administered? Finally, how can I challenge these results? As I do not agree with the results and / or the way such test was conducted as it violated and discriminated me and my rights. I am more than capable of performing the duties and tasks for the position I am applying , otherwise I wouldn't be applying for it. I can easily demonstrate such away from this computerized test system that does not resemble in one bit the real life duties of the job itself.
FFRA-22-00200	7/6/2022	his Request is for any and all records and documents, including electronic communications arising out of or related to the PROJECT, including any and all such records, documents and electronic communications that are/were maintained in the "FTA's electronic grants award and management system, TEAM." Records requested include but are not limited to Grants related to the Project and all documents related thereto Technical Application and all related documents/information Statements of Work for the Project Project Schedules
FFRA-22-00201	7/6/2022	We are searching for the December 2008 version of the FRA Railroad Trespassing Fact Sheet
FFRA-22-00202	7/12/2022	Request for 2008 FRA Summary Railroad Trespassing Fact Sheet

FFRA-22-00203	7/13/2022	<p>We are seeking FRA records regarding a Request for Quotation ("RFQ"), listed as 1545588 and designated for "Operational and Programmatic Support". We are specifically seeking the following categories of information for the RFQ: 1) All proposals submitted in response to the RFQ 2) All companies who submitted proposals, were scored and the respective scores for each company; 3) All companies who submitted proposals but were not scored, and the reason (if any) articulate for why they were not scored; 4) All score sheets, including supporting documentation (if any) that substantiated the basis or bases for the scores; 5) Cost proposals of all bidders, and how they were ranked; 6) Documentation – including verbal communications memorialized in writing, as well as audio or video recordings – memorializing the process by which scores were formulated and ultimately assigned to each company; 7) The final, executed contract that was awarded to the winning bidder; and 8) Documentation – including verbal communications memorialized in writing, as well as audio or video recordings –memorializing the final determination regarding which bidder should be awarded the contract, including any underlying factual, policy or legal explanations upon which that final determination was based. We have no objection to, and indeed respectfully request, rolling production of responsive records if FRA is able to complete processing of records with respect to certain line items sooner than others.</p>
FFRA-22-00204	7/13/2022	<p>Docket Number FRA-2010-0056, BNSF Railway's Request for Testing Approval on its Certified Positive Train Control System. The Brotherhood of Railroad Signalmen (BRS) is requesting information not publicly available pertaining to BNSF's request submitted under the above-referenced document that was printed in the October 13, 2021, Federal Register page (56999). Specifically, BNSF redacted numerous amounts of pages within its document. BRS takes the position that the redacted items hide pertinent information that is required to make an informed comment related to the proposed OMA VBS testing. BRS is presenting the redacted information provided below as its formal FOIA request. The requested sections BNSF provided under the proposed testing request that have been redacted are: Onboard Movement Authority with the Virtual Block System 1.0, Appendix A: Concept of Operations for the Onboard Movement Authority with the Virtual Block System, Appendix B: Draft General Orders and Form Cs for OMA VBS, and Appendix C: OMA VBS Addendum to I-ETMS Positive Train Control Human Factors Evaluation Revision 1.3.</p>
FFRA-22-00205	7/13/2022	<p>I am reaching out because I would like a copy of the inspection report for the crossing inspections conducted in the Town of Lake Park in January 2022.</p>
FFRA-22-00206	7/14/2022	<p>Request for a copy of Union Pacific's Emergency Operation Plan</p>
FFRA-22-00207	7/14/2022	<p>June 27, 2022 U.S. Department of Transportation Crossing No. 005284Y/ Mendon, Missouri request a copy of the investigation file for the above-referenced collision. Please provide a copy of the entire investigative file, including, but not limited to, a copy of any diagrams, accident reconstruction information, interviews, train &amp; rail inspections, etc. Additionally, we would like the complete file of any other accident or near miss which has occurred on this crossing within the past ten (10) years.</p>

FFRA-22-00208	7/15/2022	request access to and copies of FRA's FOIA handbooks, operating manuals, standard operating procedures, and all other records concerning its procedures and guidance for processing of FOIA requests.2 Such records could be referred to as any of the following (and to the extent they exist, the Reporters Committee specifically requests them): • FOIA handbook, • FOIA policy, • FOIA procedure
FFRA-22-00209	7/19/2022	All records from the last 10 years that relate to the ownership, control, governance, maintenance, inspection, condition, or safety of the railway bridge on the Wabash River in Mount Carmel, Illinois (38°24'04.8"N 87°45'15.2"W) (the "Bridge"), including all bridge inspection reports and all records of any actions taken by the Federal Railroad Administration related to the Bridge.
FFRA-22-00211	7/21/2022	Request for a paper copy of FOIA 20-110 and 20-130
FFRA-22-00212	7/21/2022	Any and all investigations, reports, videos, tests, inspections, results, emails and documents prepared by and received by the Federal Railroad Administration or any investigative body concerning a June 14, 2022 accident which occurred at 4537 LA Highway 480, Campti,(Natchitoches Parish) Louisiana 71411, in which a railway worker was struck by a Kansas City Southern locomotive. The accident occurred near the intersection of La. Hwy 3163 and La. Hwy 480 north of Campti, La. I am particularly interested in obtaining any videos of the accident, including video taken from any cameras on-board the railroad locomotive.
FFRA-22-00213	7/26/2022	a employee name list in Excel Spreadsheet format for all FRA employees in the States IL, IN, OH & WV to be sent by email.
FFRA-22-00214	7/26/2022	All email communications to/from FRA employee Melissa Hatcher and any e-mail addresses registered at the domain name illinois.gov between October 1, 2021 and the present.

FFRA-22-00225	8/10/2022	I am requesting copies of all project records related to the upgrading of US DOT Grade Crossing No. 664-501-N. This crossing is on Red Banks Rd., outside of the community of Red Banks in Marshall County, Mississippi

FFRA-22-00226	8/10/2022	any/all documents, accident reports, investigative reports, defects, violations, investigations, recordings, photographs, videos, diagrams, depictions, and/or other media of any kind pertaining to the following incident: Date of Incident: November 22, 2020 Location of Incident: Fostoria, OH Railroad: CSX Transportation Description: On November 22, 2020, was a conductor for CSX on a shove move in Fostoria, Ohio. Unbeknownstl, other employees had previously complained/notified CSX that the vegetation along the tracks in Fostoria had overgrown into/onto the rails, and several limbs/trees/bushes would hit/brush-up against the cars as they moved through the yard, making it very difficult, if not impossible, for CSX employees to ride the rail cars when necessary without getting struck by the overgrowing trees/limbs. Sadly, even with notice of the dangerous conditions, CSX did nothing to correct these conditions. So fast forward to November 22, 2020, and his crew were performing a shoving move on CSX's tracks in Fostoria, OH. had positioned himself on the side ladder of the first car (on the rear of the train) so that he could serve as the eyes of the engineer and give appropriate instructions by radio. Tragically, was not aware of the dead tree and overgrowing vegetation, and was struck/impaled by a large dead tree that was hanging over onto the tracks/rails, which caused fatal injuries.
FFRA-22-00228	8/10/2022	I am trying to obtain the official incident report for an accident involving one of our shipments moving on the Norfolk Southern. Is this something you can assist with? We have reached out numerous times to the NS and have not received any incident reports. I have put all the details below. Accident Location: Bethlehem, PA Date: 4/24/22 Railcar: KRL164004
