A-FR-2024-00001	11/15/2023	I'm looking for FRA to complete my FOIA request, FFRA-23-00220, by sending over additional documents that were not included in the original set. I asked for documents regarding "corrective action the U.S. Department of Transportation/Federal Railroad Administration instructed those companies to take and whether that corrective action was administered." That should include whether the FRA/U.S. DOT -- beyond the inspector recommendations -- required any companies to take corrective action -- including but not limited to the civil penalties, civil prosecution, etc. regarding operations in Maine. Given the wording of my request, that should include the final decisions made by FRA/U.S. DOT, not just the inspector recommendations.
A-FR-2024-00002	02/13/2024	I am writing to appeal the redaction of records and request an index of withheld documents from my FOIA request #FFRA-22-00217 about the SCMAGLEV project. I requested emails from the Federal Railroad Administration containing search keywords about the superconducting maglev project, and I received many heavily redacted emails. Also, 2,014 pages of documents were withheld, and it will be difficult to determine if they contain relevant information without a list of their titles.
A-FR-2024-00004	05/22/2024	Appealing the response received from FRA FOIA dated 5/7/2024
A-FR-2024-00005	07/18/2024	The FRA's response to my office's FOIA request is otherwise insufficient and its broad application of Exemption 5 is inappropriate. Therefore, I respectfully request that the FRA disclose the redacted documents, as well as additional documents that may have been inappropriately left out of the initial disclosure.
