December 8, 2024

Dear Mr. Bennett:

This letter responds to the CT Rail submission dated October 24, 2024, to the Federal Railroad Administration (FRA) seeking approval of its material modifications to the ABCD Conductor Certification Program received by FRA on October 24, 2024. CT Rail has complied with FRA's procedures for submitting and approving programs described in Appendix B to 49 CFR part 242. FRA reviewed the railroad's program modification and determined that the railroad's program modification conforms with the requirements of 49 CFR part 242 for the reasons discussed below.

Your submission states that on October 24, 2024, the railroad provided a copy of its program modification to Mr. Rick Lee, General Chairman, and Mr. Eric Drumm, Local Chairman of the SMART-TD labor organization, which represents the railroad's employees. FRA received no comments on the program or program modification from the labor organizations.

The program modifications are consistent with the model of the previously approved Class III railroad programs. FRA understands that the modifications are intended to provide more detail to the conductor certification process and update contact information. Additional modifications to the submission also addressed deficiencies with the standard requirements of 49 CFR part 242, appendix B. Standards have been set regarding re-qualifying over a specific territory. Detailed training standards have been established in Section Four of your conductor training program.

Please continue in your efforts to improve railroad safety on your system.

Please contact us with any questions regarding this submission at (202) 366-0978 or FRAOPCERTPROG@dot.gov or Kevin.Lewis@dot.gov or Kurt.Erickson@dot.gov

Sincerely,

Kurt Erickson
FRA Rail Safety Specialist – Certification
