January 21, 2025

Dear Mr. Helbling:

This letter responds to the Red River Valley & Western Railroad (RRVW) submission dated December 4, 2024, to the Federal Railroad Administration (FRA) seeking approval of its material modifications to the RRVW Engineer Certification Program received by FRA on December 4, 2024. RRVW has complied with FRA's procedures for submitting and approving programs as described in Appendix B to 49 CFR part 240. FRA reviewed the railroad's program modifications and determined that the railroad's program modifications conform with the requirements of 49 CFR part 240 for the reasons discussed below.

Your submission states that on December 4, 2024, the railroad provided a copy of its program modification to Mr. Rodger Brown, President of the SMART-TD, and Mr. Tyler Van Hee, Local Chairman, SMART Local 1137, labor organization, which represents the railroad's employees. FRA received no comments on the program or program modification from the labor organizations.

The program modifications are consistent with the model of the previously approved railroad programs. FRA understands that the modifications are intended to provide more detail to the engineer certification process and updated contact information. Additional modifications to the submission also addressed deficiencies with the standard requirements of 49 CFR part 240, appendix B. The improvements enhance qualifications for DLSEs. Standards have been set concerning re-qualifying over a specific territory. Section Five of your engineer training program has established detailed training standards.

Please continue in your efforts to improve railroad safety on your system.

Please contact us with any questions regarding this submission at (202) 366-0978 or FRAOPCERTPROG@dot.gov or Kevin.Lewis@dot.gov or Kurt.Erickson@dot.gov.

Sincerely,

Kurt Erickson
