Federal Railroad Administration Buy America Sample Component List (List for illustration purposes only).

System/Group	Components
Steel used in manufacture of locomotive deck, floor, shell and crashworthiness elements	
and order work minoso oternorite	Side frame structure
	End structure
	Floor structure
	Roof structure
	Integrated cab structure
	Carbody steel (side frame)
	Carbody steel (carbody skin) Deck
Main transformers	Deck
Wall talloremore	Transformers
	Invertors
	Contactors
	Rectifiers
	Brake choppers
	Filter inductors
Traction motors	
Dranulaian goor hayes	Traction motors
Propulsion gear boxes	Propulsion goar boyes
Interior linings	Propulsion gear boxes
Interior linings	Panels
	Moldings
	Window masks
Acceleration and braking resistors	
<u> </u>	Acceleration and braking resistors
Propulsion controls	
	Propulsion controls
Low voltage auxiliary power supplies	
	Batteries
	Battery chargers
	Battery boxes Auxiliary AC motors
HVAC System (if equipped)	Auxiliary AC motors
11VAC Oystern (ii equipped)	A 1 1/4 1 1/4
	Air conditioning units
	Air conditioning units Controls
	Controls
Air brake system(s) both pneumatic and mechanical	Controls Electric baseboard heaters and covers
Air brake system(s) both pneumatic and mechanical	Controls Electric baseboard heaters and covers Piping and fittings
Air brake system(s) both pneumatic and mechanical	Controls Electric baseboard heaters and covers Piping and fittings Houses and couplers
Air brake system(s) both pneumatic and mechanical	Controls Electric baseboard heaters and covers Piping and fittings Houses and couplers Control manifold and valves
Air brake system(s) both pneumatic and mechanical	Controls Electric baseboard heaters and covers Piping and fittings Houses and couplers Control manifold and valves Tread brake units
Air brake system(s) both pneumatic and mechanical	Controls Electric baseboard heaters and covers Piping and fittings Houses and couplers Control manifold and valves Tread brake units Wheel slide control system and control unit
Air brake system(s) both pneumatic and mechanical	Controls Electric baseboard heaters and covers Piping and fittings Houses and couplers Control manifold and valves Tread brake units Wheel slide control system and control unit Compressor
	Controls Electric baseboard heaters and covers Piping and fittings Houses and couplers Control manifold and valves Tread brake units Wheel slide control system and control unit
Air brake system(s) both pneumatic and mechanical Train control systems (including PTC)	Controls Electric baseboard heaters and covers Piping and fittings Houses and couplers Control manifold and valves Tread brake units Wheel slide control system and control unit Compressor Brake controls
Train control systems (including PTC)	Controls Electric baseboard heaters and covers Piping and fittings Houses and couplers Control manifold and valves Tread brake units Wheel slide control system and control unit Compressor
	Controls Electric baseboard heaters and covers Piping and fittings Houses and couplers Control manifold and valves Tread brake units Wheel slide control system and control unit Compressor Brake controls
Train control systems (including PTC)	Controls Electric baseboard heaters and covers Piping and fittings Houses and couplers Control manifold and valves Tread brake units Wheel slide control system and control unit Compressor Brake controls Train control systems (including PTC) Windows Panes
Train control systems (including PTC)	Controls Electric baseboard heaters and covers Piping and fittings Houses and couplers Control manifold and valves Tread brake units Wheel slide control system and control unit Compressor Brake controls Train control systems (including PTC) Windows Panes Frames
Train control systems (including PTC)	Controls Electric baseboard heaters and covers Piping and fittings Houses and couplers Control manifold and valves Tread brake units Wheel slide control system and control unit Compressor Brake controls Train control systems (including PTC) Windows Panes Frames Diaphragms
Train control systems (including PTC)	Controls Electric baseboard heaters and covers Piping and fittings Houses and couplers Control manifold and valves Tread brake units Wheel slide control system and control unit Compressor Brake controls Train control systems (including PTC) Windows Panes Frames Diaphragms Molding
Train control systems (including PTC) Windows and window assemblies	Controls Electric baseboard heaters and covers Piping and fittings Houses and couplers Control manifold and valves Tread brake units Wheel slide control system and control unit Compressor Brake controls Train control systems (including PTC) Windows Panes Frames Diaphragms
Train control systems (including PTC)	Controls Electric baseboard heaters and covers Piping and fittings Houses and couplers Control manifold and valves Tread brake units Wheel slide control system and control unit Compressor Brake controls Train control systems (including PTC) Windows Panes Frames Diaphragms Molding Gaskets
Train control systems (including PTC) Windows and window assemblies Communication equipment	Controls Electric baseboard heaters and covers Piping and fittings Houses and couplers Control manifold and valves Tread brake units Wheel slide control system and control unit Compressor Brake controls Train control systems (including PTC) Windows Panes Frames Diaphragms Molding
Train control systems (including PTC) Windows and window assemblies	Controls Electric baseboard heaters and covers Piping and fittings Houses and couplers Control manifold and valves Tread brake units Wheel slide control system and control unit Compressor Brake controls Train control systems (including PTC) Windows Panes Frames Diaphragms Molding Gaskets Radios
Train control systems (including PTC) Windows and window assemblies Communication equipment	Controls Electric baseboard heaters and covers Piping and fittings Houses and couplers Control manifold and valves Tread brake units Wheel slide control system and control unit Compressor Brake controls Train control systems (including PTC) Windows Panes Frames Diaphragms Molding Gaskets Radios Exterior lighting, including fixtures
Train control systems (including PTC) Windows and window assemblies Communication equipment Lighting	Controls Electric baseboard heaters and covers Piping and fittings Houses and couplers Control manifold and valves Tread brake units Wheel slide control system and control unit Compressor Brake controls Train control systems (including PTC) Windows Panes Frames Diaphragms Molding Gaskets Radios
Train control systems (including PTC) Windows and window assemblies Communication equipment	Controls Electric baseboard heaters and covers Piping and fittings Houses and couplers Control manifold and valves Tread brake units Wheel slide control system and control unit Compressor Brake controls Train control systems (including PTC) Windows Panes Frames Diaphragms Molding Gaskets Radios Exterior lighting, including fixtures
Train control systems (including PTC) Windows and window assemblies Communication equipment Lighting	Controls Electric baseboard heaters and covers Piping and fittings Houses and couplers Control manifold and valves Tread brake units Wheel slide control system and control unit Compressor Brake controls Train control systems (including PTC) Windows Panes Frames Diaphragms Molding Gaskets Radios Exterior lighting, including fixtures Interior lighting, including fixtures
Train control systems (including PTC) Windows and window assemblies Communication equipment Lighting	Controls Electric baseboard heaters and covers Piping and fittings Houses and couplers Control manifold and valves Tread brake units Wheel slide control system and control unit Compressor Brake controls Train control systems (including PTC) Windows Panes Frames Diaphragms Molding Gaskets Radios Exterior lighting, including fixtures Interior lighting, including fixtures Seat assemblies
Train control systems (including PTC) Windows and window assemblies Communication equipment Lighting	Controls Electric baseboard heaters and covers Piping and fittings Houses and couplers Control manifold and valves Tread brake units Wheel slide control system and control unit Compressor Brake controls Train control systems (including PTC) Windows Panes Frames Diaphragms Molding Gaskets Radios Exterior lighting, including fixtures Interior lighting, including fixtures Seat assemblies Cushions Seats
Train control systems (including PTC) Windows and window assemblies Communication equipment Lighting Seating	Controls Electric baseboard heaters and covers Piping and fittings Houses and couplers Control manifold and valves Tread brake units Wheel slide control system and control unit Compressor Brake controls Train control systems (including PTC) Windows Panes Frames Diaphragms Molding Gaskets Radios Exterior lighting, including fixtures Interior lighting, including fixtures Seat assemblies Cushions Seats Side entry doors
Train control systems (including PTC) Windows and window assemblies Communication equipment Lighting Seating	Controls Electric baseboard heaters and covers Piping and fittings Houses and couplers Control manifold and valves Tread brake units Wheel slide control system and control unit Compressor Brake controls Train control systems (including PTC) Windows Panes Frames Diaphragms Molding Gaskets Radios Exterior lighting, including fixtures Interior lighting, including fixtures Seat assemblies Cushions Seats

Federal Railroad Administration Buy America Sample Component List (List for illustration purposes only).

Couplers and draft gear	
Couplers and draft gear	Yoke
	Drawbar
	Coupler CEM structure
Trucks	Coupler CEIVI Structure
TIUCKS	Truck frames – either fabricated or cast
	Truck suspension systems
	Elastometers
	Truck mounts for propulsion systems
	Truck bolster-connections to carbody
	Wheels
	Axles
	Axle drivers
	Journal bearings
Floors	
	Phenolic composite floor panels
	Plymetal
	Plywood
	Honeycomb panels
	Rubber floor coverings
	Linoleum
Event recorder	
	Event recorder
Wiring harnesses	
	Wiring harnesses
Sanding system	
	Sanding system
Metal fabrication	
	HVAC duct system (if included)
	Other underfloor equipment lockers
	Internal equipment lockers
	Blower cab fabrication
	Radiator cab fabrication
	U Tube assembly
	Pipe rack Cable tray
Lavatory equipment and facilities	Cable tray
Lavatory equipment and facilities	Interior/exterior fiberglass reinforced polyester FRP
	Countertop sink
	ADA grab bars
	Faucet/drain
	Fixtures
	Exhaust duct and fan
	Plumbing
	Water heater
	Water supply
	Waste water tank
	Toilet and seat
Cab equipment	
	Engineer console
	Cabinets
	Overhead indicator panel
	All instrument panels
Engine	
	Diesel engine
	Alternator
	Radiator
	Cooling fan
Other (not included above)
