Virginia Department of Transportation U.S. Environmental Protection Agency

8/24/17

Date of Approval

Director

Virginia Department of Rail & Public Transportation

Associate Administrator for Railroad Policy and Development

info L. Mitchell

Federal Railroad Administration

This Tier II Draft Environmental Impact Statement defines existing and future transportation conditions and needs within the 123-mile railroad corridor from Washington, DC to Richmond, Virginia; identifies a range of alternative improvements that would address those needs; and evaluates the potential effects of the alternatives on the natural and human environments. The corridor is part of the larger Southeast High Speed Rail (SEHSR) Corridor which extends from Washington, DC to Charlotte, North Carolina. A Tier I evaluation of the SEHSR Corridor was completed in 2002.

FRA intends to issue a combined Final Environmental Impact Statement and Record of Decision document pursuant to Public Law 112-141, 126 Stat.405, Section 1319(b) unless FRA determines statutory criteria or practicability considerations preclude issuance of the combined document pursuant to Section 1319.
