Region 8's FRA Hazmat Team is pleased to offer a FREE three-day conference focusing on the safe shipment of HM by tank car.

Breakout sessions will be presented by industry experts on various topics including:

- One-Time Movement Approvals (OTMA)	- New Tank Car Construction
- Field Repairs to Tank Cars	- Regulatory Update
- Loading\Unloading Requirements	- Quick Connect Valves & Fittings
- Tank Car Securement – Gasket Materials, Lubrication, and Torque Recommendations	- Effective Hazmat Training Programs – Function Specific, General Awareness, Security Training
- Root Cause Analysis	- Non-Accidental Release (NAR) Statistics
- Derailments – Case Studies and Lessons Learned	- And more...

This invite is extended to all HM shippers, consignees, transloaders, storage sites, repair facilities, and contractors involved in the loading/unloading and inspecting of tank cars.

* * *Display booths by product and service vendors will be available * * *

Motel accommodations in the immediate area include:
