

T.O. 9 SW CHSRA Transbay Transit Center

The Transbay Transit Center will centralize the Bay Area’s transportation network by conveniently connecting all points in the San Francisco Bay Area in a state-of-the-art bus and rail station in the heart of a new transit-friendly neighborhood. The approximately \$4.5 billion project will replace the former Transbay Terminal at First and Mission streets in San Francisco with a modern regional transit hub connecting eight Bay Area counties and the State of California through 11 transit systems, including California High Speed Rail.

Transbay Transit Center

This new “Grand Central of the West” consists of three interconnected elements:

- Replacing former Transbay Terminal at First & Mission streets
- Extending Caltrain and high speed rail underground from Caltrain’s current terminus at 4th & King streets into the new Transit Center
- Creating a new neighborhood with homes, offices, parks and shops surrounding the new Transit Center
